### Intended use

For protecting the user's respiratory tract against the harmful impact of air pollution in the form of solid and/or liquid particles forming aerosol (dust, fumes, mists) up to 30 × TLV. Filtering performance of at least 99%.

### Application

High concentration of respirable dusts; use when welding or soldering; the half mask protects against dusts containing beryllium, antimony, arsenic, cadmium, cobalt, nickel, radium, strychnine, and radioactive particles.

### Specification

Half mask face-piece:

- Needle-punched nonwoven polyester
- Melt-blown nonwoven polypropylene
- Protective nonwoven

Additional elements:

- Head band pins
- Head bands

The improved, preshaped nosepiece and the head band pins guarantee outstandingly effective facial fit that increases the safety and comfort of use.

## Requirements

The half mask meets the latest requirements:

**Regulation (EU) 2016/425 of the European Parliament and of the Council of 9 March 2016 on personal protective equipment** and repealing Council Directive 89/686/EEC.

## Contraindications

The half mask must not be used under low-oxygen conditions (below 17%), which means that it is forbidden to use it in confined spaces, such as canals, manhole shafts, tanks. Also, the half mask does not protect against vapours and gases that are harmful for health and pose a life hazard. Do not use while extinguishing fire. The half mask does not supply oxygen. The half mask will not provide adequate facial fit for people with unshaved or bearded face.

Primary packaging: 50 pcs per plastic bag

Collective packaging: 400 pcs per carton
